

Cost Control

“Are we paying for technology we do not need?”

Cloud, SaaS, licensing and telecom baseline with an optimization and renewal plan.

DESIGNED FOR

Finance and IT leaders seeking better visibility and control over recurring technology spend.

WHAT WE DO

- Reconcile contracts, invoices, licenses, usage and service inventories.
- Identify idle capacity, duplicated tools and underused subscriptions.
- Review renewal dates, commitments, allocation and supplier options.

WHAT YOU RECEIVE

- Spend baseline by service, supplier and accountable owner.
- Opportunity register with assumptions, dependencies and estimated impact.
- Optimization backlog and renewal calendar with recommended actions.

THE BUSINESS OUTCOME

Better spending decisions supported by usage evidence and a repeatable review process.

HOW WE ENGAGE

Start with agreed suppliers and spend categories; validate recommendations before changes or commitments.

Track realized savings against baseline, utilization and renewal coverage.

ENGAGEMENT MODEL

Fixed assessment + follow-up
